

JOB OFFER

TURNSPORT
NIEDERÖSTERREICH

As Regional Gymnastics Federation, member of Austrian Gymnastics Federation, we are competence center and representatives for Gymnastics in Lower Austria. TSNOE has about 14.000 members and is responsible for organizing regional competitions in all gymnastics disciplines and for all levels for more than 70 member clubs, among others also developing regional squads and guide access to national competitions.

The Lower Austrian training center (LLZT) for Artistic Gymnastics was established to support male and female gymnasts aged 8-19 on their career path to professionals, in cooperation with a State established (boarding) school for high-level training and the support of Olympic Center facilities. We are located and embedded in a very charming area, with lake and river directly in front of the center, Vienna as well as mountains are close. LLZT is interface between clubs – in case of a lack of optimized infrastructure and framework – and Austrian national competence center during the period, where gymnasts go through adolescence and school education. To support this process in youth competitive sports, the government of Lower Austria granted each MAG and WAG one contract for a head-coach, while the rest of the team is voluntary-working organized.

For our female gymnasts with immediate effect we are searching an experienced coach who is willing to take responsibility for all our age groups until Senior/Elite in the position of a head-coach.

Head-Coach for Women's Artistic Gymnastics

Organization: Lower Austrian Gymnastics Federation (Turnsport Niederoesterreich)
